

Halliburton Twin HT400 Trailer Cement Unit

ID Number:	IM91H33211JA211	Unit serial number:	5683
Year Of Manufacture:	Sept 1999	Present Location:	Hamriyah FZ Sharjah, UAE
Assembly Part Number:	75TC4	Inspection and testing:	TBC
Manufacturer:	Halliburton	Model:	HT400 Twin
Rated capacity:		Engine Horsepower Continuous:	1,025, 2 x Cummins NT855
Maximum Circulating Pressure:		Maximum Speed RPM:	
Height:		Width:	
Length:		Gross Vehicle Weight Rating:	63,000lbs (28576.32KG)
G.A.W.R. First Rear Axle:	21,200 lbs	Generators:	2 x Allison DRD 750
G.A.W.R. Rear Most Axle:	21,200 lbs		

Pumps and Engines

- Twin HT-400 pumps deliver increased pump rate and, in certain cases, eliminate the need for a second cement unit on location
- All engines are Tier II emission certified
- Constant pump rate capability allows jobs to be pumped as designed across a wider pressure range
- Twin HT-400 drivetrains are equipped with an overpressure kick-out system
